Summary

Graphic Designer & motion graphic Started Learning Graphic Designing in **4/2018** and Built my own portfolio at **Behance**. In 8/2019 I begin learning motion graphic To develop my self **7/2020**. Planning To improve my Skills in advertising & motion.

My future plan for this year is mastering **manipulation** and **after effect**, I always try to develop myself and be in a state of **development** , after that I will start learning c4d Where the field of 3D has become an important field in the designs of social media instead of relying on ready-made elements and it is also used in the field of motion graphics

I have experience that is not bad in the programming field, because I learned in my spare time and I mean in the programming field the user interface, the frontend

Hobbies Designing, programming, Traveling and Reading
